

## Cedar Class

Summer 2025

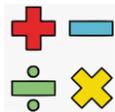

Welcome back everyone! We have a super term of learning planned for the summer term.

### English

First of all, we will be looking at information texts and writing a report about a sea animal. Our book 'Somebody Swallowed Stanley' will also teach us to understand how we need to look after the creatures in our oceans. Then we will be sharing the book 'Goldilocks and Just the One Bear' to help us to write our own traditional tale with a twist. We will also be listening to poems and writing a list poem about space.

In Cedar Class, we love reading and we will continue to make reading our main priority. Daily Read Write Inc sessions will continue to support us in recognising and applying all of our sounds more fluently.

### Maths

The children will be counting in 2s, 5s and 10s and will begin to understand the concept of multiplication and division by grouping and sharing. We will also explore fractions, position, money and time, before moving onto working with numbers to 100. Recalling small number facts in our daily '4-a-day' arithmetic lessons and working on personalised maths targets will continue to be a priority.

### Science

This term, we will learn about plants, identifying and naming a variety of common and wild plants. We will identify and name the basic structure of plants including trees. Throughout the term, we will enjoy observing and comparing plants and watching them change over time.

### Other curriculum areas

In history, we will be asking 'What was the Rocket?' and finding out about the significance of The Rainhill Trials. In geography, the children will continue to learn about physical and human features and will compare Warrington to the coastline of Crosby. Please look on our class page on the school website to find out more detail about our wider curriculum and the rich variety of experiences that the children have in school.

## Homework

It is incredibly important that children have the opportunity to read as regularly as possible. Not only does being able to read fluently help children in every subject, and therefore find learning easier, but more importantly, we are committed to fostering a love of reading. Thank you for all of your support with reading regularly with your child at home.

## Reminder...

Your child will bring home a book that is matched to all of the sounds that they know. The book should be easy for them to read and create a feeling of success when reading at home. Please aim for your child to read with you at least three times a week. Reading the book several times helps children to hear themselves 'be readers' and they should be encouraged to use a 'story teller voice' once they have read the book once. Children need to keep their reading book in their book bag every day, as sometimes they may be asked to read it to an adult. Books will be changed on a Thursday, ready to go home on Friday.

Children will continue to work on their personal maths passport targets. The quicker that children recall small number facts, the easier they find their learning in school. Thank you for your support with helping your child to their Maths challenges regularly.

The children also have a homework book which will include weekly tasks.

## PE kits

Children need black shorts, our Dallam Primary School blue PE T Shirt and trainers (pumps are no longer worn). PE kits need to be kept in school ready for our lessons.

## Water bottles

Please make sure that children have a water bottle in school every day. It is really important that they keep hydrated and having a bottle in school is the best way for them to access plenty of water quickly.

Please don't hesitate to come and see us if you have any questions.

Mrs Read, Mrs Clegg and Mrs Hughes.
